## DETAILED ACTION

### Remarks

1. In response to communications filed on December 5, 2005, claims 55-96 are cancelled; no claims have been amended, and no new claims have been added.

Therefore, claims 1-54 and 97-103 are presently pending in the application.

### *Double Patenting*

2. Claims 1-54 and 97-103 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-60 of U.S. Patent No. 10/390547. Although the conflicting claims are not identical, they are not patentably distinct from each other because both sets of claims disclose a workstation that can be used by a user to send a request identifier. Send the identifier to a database factory if the identifier is not in the database or categorized. Both also disclose rules/policies associated with the categories.

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

### ***Response to Arguments***

4. Applicant's arguments filed on 05-December -2005, with respect to the rejected claims 1-30 have been fully considered but they are not found to be persuasive:

In response to applicants' arguments regarding "the provisional rejection should be withdrawn", the arguments have been fully considered but are not found to be persuasive, because the conflicting claims do not need to be patented. A statutory double patenting rejection would be applied if the conflicting claims were patented otherwise a obviousness-type double patenting rejection is given in this case because both are pending applications. Both application contain similar subject matter within the claims and therefore are in fact obviousness-type double patenting. Both applications disclose a workstation that can be used by a user to send a request identifier/execution of a program. Send the identifier/program to a database factory if the identifier/program is not in the database or categorized, in order for the identifier/program to be categorized. Both also disclose rules/policies associated with the categories. Applicant submits a blanket argument, with no supporting evidence, in regards to why the provisional rejection should be withdrawn. Therefore, a terminal disclaimer is requested and the rejection stands. Applicant is invited to schedule a formal interview to further discuss the obviousness-type double patenting rejection.

***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
